

DEP Online Continuing Education Courses FOR CERTIFIED COMPANIES IN EROSION CONTROL

Maine law requires a contractor filling or disturbing soil in the municipal shoreland zone have a DEP-certified individual responsible for erosion and sediment control on-site each day until the site is permanently stable. Individuals must complete approved Continuing Education Hours to maintain certification. There is a 6-month grace period for recertification from the expiration date.

As an option, companies who have <u>all</u> their site supervisors individually certified can apply to DEP to be designated as a CERTIFIED COMPANY. A Certified Company can save a considerable amount of money by paying a flat rate **per calendar year** and can submit unlimited number recertification certificates using the online continuing education course library.

Please use this form if you have already received Certified Company designation from DEP. If you would like to learn more about how to become a Certified Company, contact John Maclaine at (207) 615-3279 or john.maclaine@maine.gov.

FOR CALENDAR YEAR: Certified Company Name: Company Address:		Company Contact:			
First Calendar Year Submission		Subsequent Submission (fee has been paid for this calendar year)			
If this is the firs		ase remit the registration fee as indicated be required for subsequent submissions	d below and complete the		
1-10 Crew Members: \$65.00		11-20 Crew Members: \$110.00 Over 20 Crew Memb		bers: \$155.00	
Complete the information below for each in-		ndividual. Each online module will afford 1 year of recertification credit, up to 8 years.		up to 8 years.
