

Submersible Pumps with Tear Down & Assembly Demonstration

Tuesday, May 14, 2024
York Sewer District, York, ME
8:30 a.m. - 3:30 p.m. — Sign-in begins at 8:00 a.m.

This class will provide a comprehensive look into the world of submersible pumps, the history of their evolution and what the future has in store. Majority of focus will be on the principles of operation and maintenance of submersible pumps. The morning session will include classroom instruction covering topics including:

- Submersible pump history
- Current submersible capabilities
- Submersible pump overview – design application
- Components of submersible pumps
- Maintenance procedures

The afternoon will feature the tear down and re-assembly of Flygt brand pumps to demonstrate proper procedures. Students will have the opportunity to participate during the afternoon demonstration.

Course #: J2429
Instructors: Sean Melrose, Xylem/Flygt
Bob Hoffman, Xylem/Flygt
Ryan Scott, Xylem/Flygt
Cost: \$150 (includes lunch)
Credits: 6 Training Contact Hours approved for water and wastewater operators
Registration Deadline: May 7, 2024

*This training may be available to you at half-price due to funding available through the Harold Alfond Center for the Advancement of Maine's Workforce. However, you must apply for this funding before the start of the program. For more information on this funding opportunity, visit the Center's [website](#) or contact Edward Wright at ewright@mccs.me.edu or (207) 227-2603.
